## AUTHORS' INTRODUCTION

The Scoring Tables of Athletics are based on exact statistical data and according to the following principles: The scores in the tables of different events cover equivalent performances. Therefore, the tables can be used to compare results achieved in different athletic events.

Due to obvious biological differences, it is not proposed to fully compare men's and women's performances. Thus, the system contains scoring tables for men's and women's events respectively.

The tables are progressive, which means that the same improvement of results at higher levels leads to a greater increase in the scores. For example, to improve from 8.30m to 8.60m in the Long Jump is obviously more difficult than to improve from 6.30m to 6.60m. The degree of progressivity in the running (walking, hurdling) events is different than in the jumping and in the throwing events due to biomechanical reasons.

The **IAAF Scoring Tables of Athletics** can be used for multiple purposes, including:

- **To determine the Result Score of a performance for the World Rankings;**
- **To evaluate the competitions;**
- **To establish the best athlete award in a specific competition;**
- **To produce national, club, school and other rankings;**
- **To use it in championships of clubs, etc.**

Should a performance fall between two results on the tables the lower score shall be considered.

In view of tradition and in effort to keep things simple, the Scoring Tables include only whole number scores for expressing performances.

Hand times:

- **Sprints and Hurdles up to 200m:            add 0,24 sec**
- **300m, 400m and 400m Hurdles:            add 0,14 sec**

The tables are being continuously reviewed. When noted, discrepancies shall be removed and, if necessary, new events shall be added so that the Scoring Tables are always accurate and up to date.

*Dr. Bojdar Spiriev  
(1932-2010)*

The 2025 edition of the World Athletics Scoring Tables of Athletics contains 162 athletic events (80 each for men and women, and two mixed).

Yearly statistical data has been analysed since the last edition of the World Athletics Scoring Tables, including the results of 2022, 2023 and 2024.

Due to the unprecedented fast improvement of the results in the marathon events, disproportions have occurred in the scoring tables. Therefore, the parameters had to be adjusted accordingly. This has also affected the 25km and 30km road events.

The mixed 4x400m has become a regular part of the international championship programmes, so is now included in the tables.

Adjustments of different volumes were made in the following events:

- **Men's 25km road race, men's 30km road race, men's marathon**
- **Women's 25km road race, women's 30km road race, women's marathon**

The following events were added:

- **Men's mile road race**
- **Women's mile road race**
- **Mixed 4x400m, mixed 4x400m short track**

Because of the recent rule changes (short track), the structure of the World Athletics Scoring Tables has been modified and now the tables are published within a single book, including the short track events.

I would like to thank András Szabó, project director of ELITE Ltd, for his valuable assistance in preparing this revised edition of the World Athletics Scoring Tables of Athletics, created by Dr. Bojidar Spiriev.

***Attila Spiriev***

## INTRODUCTION DES AUTEURS

Les Tables de Cotation d'Athlétisme sont basées sur des données statistiques exactes, établies selon les principes suivants :

Les points attribués aux différentes épreuves dans les tables couvrent des performances équivalentes. Ces tables peuvent donc être utilisées pour comparer les résultats obtenus dans différentes épreuves d'athlétisme.

En raison de différences physiologiques évidentes, il n'est pas possible de comparer totalement les performances des hommes et celles des femmes. Le système comprend donc des tables de cotation séparées pour les épreuves masculines et féminines.

Les tables sont progressives, ce qui signifie qu'une même amélioration des résultats au plus haut niveau conduit à une augmentation plus importante des points. À titre d'exemple, passer de 8,30m à 8,60m au saut en longueur masculin est évidemment plus difficile à réaliser que passer de 6,30m à 6,60m. Le degré de progressivité dans les courses (y compris la marche et les haies) diffère de celui observé dans les sauts et les lancers pour des raisons biomécaniques.

Les Tables de Cotation d'Athlétisme de l'IAAF peuvent être utilisées à des fins multiples :

- **Déterminer la valeur en points d'une performance pour les classements mondiaux ;**
- **Évaluer les compétitions ;**
- **Récompenser le meilleur athlète dans une compétition donnée ;**
- **Établir des classements nationaux, scolaires ou de clubs, et bien d'autres ;**
- **Les utiliser pour des championnats interclubs, etc.**

Si une performance se situe entre deux valeurs affichées dans les tables, la valeur inférieure devra être prise en compte.

Conformément à la tradition et dans un souci de simplification, les tables de cotation expriment les performances uniquement en nombres entiers.

Temps manuels :

- **Sprints et haies jusqu'à 200m :           ajouter 0"24**
- **300m, 400m et 400m haies :           ajouter 0"14**

Les tables sont constamment réexaminées. Si des écarts sont observés, ils seront gommés et, si nécessaire, de nouvelles épreuves seront ajoutées afin que les tables de cotation demeurent précises et à jour.

*Dr Bojidar Spiriev  
(1932-2010)*

L'édition 2025 des tables de cotation de World Athletics comprend un total de 162 épreuves (80 pour les femmes, 80 pour les hommes et deux épreuves mixtes).

Les données statistiques annuelles ont été analysées depuis la publication de la précédente édition, intégrant les résultats des années 2022, 2023 et 2024.

En raison des progrès rapides et sans précédent observés dans les performances des épreuves de marathon, des déséquilibres sont apparus dans les tables de cotation. Par conséquent, les paramètres ont été ajustés en conséquence, affectant notamment les 25km et 30km sur route.

Le relais mixte 4x400m, désormais une composante incontournable des programmes des championnats internationaux, a été intégré aux tables de cotation.

Des ajustements de différentes ampleurs ont été opérés sur les épreuves suivantes :

- **25km sur route masculin, 30km sur route masculin, marathon masculin**
- **25km sur route féminin, 30km sur route féminin, marathon féminin**

De nouvelles épreuves ont également été ajoutées :

- **Mile sur route masculin**
- **Mile sur route féminin**
- **Relais 4x400m mixte et relais 4x400m mixte sur piste courte**

En raison des récents changements réglementaires relatifs aux épreuves sur piste courte, la structure des tables de cotation de World Athletics a été révisée. Ces dernières sont désormais consolidées en un volume unique intégrant les compétitions sur piste courte.

Je tiens à exprimer ma gratitude à M. András Szabó, directeur de projet à ELITE Ltd, pour sa précieuse contribution à l'élaboration de cette édition révisée des tables de cotation de World Athletics créées par le Dr Bojidar Spiriev.
